

Commerce + Sales

Operating Platform

Product overview, system architecture, and a complete playbook for selling white-label e-commerce + CRM platforms to US businesses.

What's Inside

01 — What This Platform Is	3
02 — How It Works (Flows & Architecture)	4
03 — Feature Breakdown	6
04 — Who Buys This in the USA	8
05 — Value Proposition & Pricing	9
06 — Sales Process Flow	11
07 — Finding & Contacting Leads	13
08 — Outreach Scripts & Follow-Up	15
09 — Demo Playbook	17
10 — Implementation Timeline	18
11 — Objection Handling & Compliance	19

One-Line Pitch

"We build you a branded online store plus a sales dashboard — orders, commissions, abandoned carts, email campaigns, and WhatsApp/Facebook leads in one place instead of five separate tools."

5→1

Tools replaced
with one platform

4–8

Weeks to launch
for new clients

SECTION 01

Not a Website — a Business OS

This is a **full business operating system** for companies selling high-touch, consultative, or regulated products online — especially when sales happen through chat, referrals, and field agents.

Currently deployed for Peptides Costa Rica. The same codebase white-labels for other businesses: swap branding, products, payments, and shipping — the engine stays the same.

WHAT IT REPLACES

BEFORE VS. AFTER — TYPICAL CLIENT STACK

WITHOUT PLATFORM

- ✗ Shopify / WooCommerce
- ✗ HubSpot or spreadsheets
- ✗ Separate WhatsApp app
- ✗ Mailchimp + manual follow-up
- ✗ Excel for commissions
- ✗ Google Sheets inventory

WITH PLATFORM

- ✓ Built-in catalog + checkout
- ✓ CRM + lead pipeline
- ✓ Unified sales inbox
- ✓ Marketing Studio + automations
- ✓ Commission engine + payouts
- ✓ Admin product grid + CSV import

"Most of my clients were paying for 4–5 separate tools and still losing leads. We replace all of that with one dashboard built around how your team actually sells."

SECTION 02

Customer Journey Flow

What your client's buyers experience on the storefront.

Business / Admin Journey Flow

System Architecture

ADMIN MODULE MAP

SECTION 03

Storefront Features

- Bilingual Catalog
- Dual Currency
- Volume Discounts
- Promo Codes
- Live Chat
- Embeddable Widget
- Lead Capture Gate
- Referral Tracking
- Customer Accounts
- CMS Pages

ADMIN DASHBOARD — FULL MODULE LIST

Module	What It Does	Sell When...
Orders	Full lifecycle, manual orders, payment links, export	They process orders manually today
Leads + Live Chat	Pipeline, agent assignment, website inbox	They lose leads without follow-up
Commissions	Agent attribution, payout approval, reports	Reps fight over credit
Marketing Studio	Email campaigns, drip journeys, visual editor	Marketing is manual/spreadsheet
Abandoned Carts	Email + WhatsApp recovery, conversion tracking	High cart abandonment
Prospector	Map discovery, AI enrichment, outreach drafts	They need new B2B clients
Affiliates + QR	Promo codes, referral QR, scan analytics	Field reps or influencers
Sales WhatsApp	Unified inbox, templates, AI drafts	WhatsApp is primary sales channel
Automations	Visual workflow builder (triggers → actions)	They want hands-off follow-up
Analytics	Revenue, attribution, campaign performance	Can't track what marketing works

SECTION 04

Ideal Buyer Profiles

Profile	Why They Need It	Where to Find Them
Supplement retailers	Affiliate networks, compliance products	Instagram, SupplySide Expo, LinkedIn
Med spas	Consultative booking + product upsells	Google Maps, RealSelf, Yelp
B2B distributors	Commission tracking, QR referrals	LinkedIn, industry associations
Specialty e-commerce	Chat sales, agent networks	Facebook groups, Reddit, forums
Affiliate brands	Promo codes, automated payouts	PartnerStack, affiliate conferences

RED FLAGS — BAD-FIT CLIENTS

Pure drop-shipping · Enterprise ERP needs · No chat/messaging sales · Expecting instant ROI with zero effort → Refer to Shopify or pass.

SECTION 05

Pricing & Packaging

MONTHLY RETAINER (YOUR RECURRING REVENUE)

Service	USD/mo
Hosting + maintenance	\$200 – \$500
+ CMS support	\$500 – \$1,000
+ Campaign management	\$1,000 – \$2,500
Dedicated support	\$2,500+

PAIN → SOLUTION MATRIX

Pain	Your Solution
Lost leads	CRM + cart recovery
Commission fights	Auto attribution + payouts
5 separate tools	One unified dashboard
No marketing ROI	UTM + QR + analytics

Anchor pricing: "Shopify Plus is \$2,300/mo. HubSpot starts at \$800/mo. WhatsApp API is \$200+/mo. That's \$3,000+/mo in software that doesn't talk to each other."

SECTION 06

7-Step Sales Pipeline

SALES PROCESS FLOW

CONVERSION FUNNEL — TARGET METRICS (STARTING OUT)

DISCOVERY CALL QUESTIONS (15–20 MIN)

1. What do you sell, and who buys it?
2. How do orders come in today?
3. Do you have sales reps or affiliates? How are they paid?
4. What tools do you use now?
5. Biggest headache — lost leads, commissions, follow-up, analytics?
6. Multi-language or multi-currency?
7. Monthly revenue / order volume?
8. What would success look like in 90 days?

SECTION 07

How to Find Leads in the USA

LEAD SOURCE MAP — FREE VS. PAID

FREE / LOW-COST

- Google Maps — local retailers, med spas
- LinkedIn Sales Navigator — owners/founders
- Instagram hashtags — visual brands
- Facebook Groups — niche communities
- BuiltWith — Shopify sites with no CRM
- Job postings — hiring sales reps
- Your Prospector module — map + AI outreach

PAID CHANNELS

- LinkedIn Ads — \$500–2,000/mo
- Facebook/Instagram Ads — \$300–1,000/mo
- Apollo / Instantly — \$50–200/mo
- Trade show lists — SupplySide, AMWC
- Industry directory lists

Meta-Demo: Use Your Own Prospector Tool

Search "supplement store Miami" → review fit scores → save to pipeline → AI-draft outreach → track in CRM. Tell prospects: "I used this exact tool to find and contact you."

SECTION 08

Cold Email — Problem Hook

Subject: Quick question about [Company Name]'s online sales

Hi [First Name],

I came across [Company Name] and noticed you're selling [product type] — great reviews on [Google/Yelp].

I'm reaching out because a lot of [industry] businesses your size are losing orders between their website, WhatsApp, and sales reps — with no clear way to track who sold what or follow up on abandoned carts.

I build all-in-one sales platforms for companies like yours: online catalog, order management, team commissions, and marketing automation in one dashboard (instead of Shopify + spreadsheets + separate chat apps).

Would a 15-minute call this week be worth it to see if this fits?

Best,
[Your Name]

Cold Email — Tool Replacement

Subject: Replace 4 tools with 1 dashboard?

Hi [First Name],

Most [industry] businesses I talk to are running:

- Shopify or WooCommerce for the store
- A spreadsheet for sales rep commissions
- WhatsApp or Facebook for customer chat
- Mailchimp for email (if they're lucky)

That's 4 logins, 4 bills, and zero connection between them.

I build custom platforms that combine all of this — catalog, CRM, commissions, WhatsApp/email marketing — for a one-time setup plus low monthly support.

Open to a quick call?

[Your Name]

Follow-Up Timeline

Rule: Max 4 touches in 30 days without a reply. Then move on.

LINKEDIN SCRIPTS

Connection Request

Hi [Name] — I work with [industry] brands on custom sales platforms (catalog + CRM + commissions). Saw [Company] and thought there might be a fit. Would love to connect.

After Accepted

Thanks for connecting! Quick question: does [Company] handle sales rep commissions and lead follow-up manually, or do you have a system? Happy to share what's working if useful.

PHONE SCRIPT (AFTER EMAIL SENT)

Hi, is this [First Name]? Hey, this is [Your Name] — I sent you an email about simplifying your online sales setup. I'll be quick: I build custom sales platforms for [industry] businesses — replacing Shopify plus spreadsheets plus separate chat apps with one dashboard. Would you have 15 minutes this week, or should I send more info by email?

SECTION 09

30-Minute Demo Structure

MODULE → PAIN MAPPING

If They Said...	Demo This
"We lose leads"	Leads pipeline + Live Chat + lead alerts
"Commission disputes"	Orders + agent attribution + payout settlement
"No cart follow-up"	Abandoned cart dashboard + recovery email
"Marketing is manual"	Marketing Studio + campaign builder
"We have field reps"	My QR & Scans + referral links + sub-users
"We sell on WhatsApp"	Sales WhatsApp inbox + templates
"Need new B2B clients"	Prospector map + AI outreach drafts

DEMO RULES

- Never show everything — 3 modules max
- Use their product name in the demo
- Show commission reports & revenue
- Always show mobile view
- Have a live staging demo ready
- End with clear next step + deposit ask

SECTION 10

4–8 Week Launch Timeline

CLIENT MUST PROVIDE

- ☐ Logo, brand colors, favicon
- ☐ Product list (CSV/Sheet) + images
- ☐ Payment processor credentials
- ☐ Domain + email sending domain
- ☐ WhatsApp Business account
- ☐ Sales team roster + commission rates

YOU CONFIGURE

- ☐ site_settings + CMS content
- ☐ Email templates (order, shipping, leads)
- ☐ Payment + SMTP + WhatsApp keys
- ☐ Admin users + permissions
- ☐ Custom domain + SSL on Vercel
- ☐ Analytics tracking snippet

SECTION 11

Objection Handling

Objection	Response
"We already have Shopify"	Shopify doesn't track rep commissions, recover carts via WhatsApp, or give agents referral QR codes. That's what we add.
"Too expensive"	What's lost leads + manual work costing you? 3–4 tools + spreadsheet hours — this pays back in 2–3 months.
"Need to think about it"	What question would you need answered? I can send a scoped proposal to review.
"Just build a website"	You'd miss the dashboard, commissions, and marketing automation — where the ROI is. Recommend Growth package minimum.
"Not tech-savvy"	That's why we include training and support. No code — everything from a simple dashboard.
"How long to launch?"	4–8 weeks from deposit, depending on how fast you provide product data and branding.

USA Compliance Checklist

CAN-SPAM (Email)

- Physical address in every email
- Clear unsubscribe link
- Honor opt-outs within 10 days
- No deceptive subject lines

TCPA (Phone/SMS)

- Don't call Do Not Call Registry numbers
- Get consent before autodialers
- Record SMS marketing consent
- WhatsApp: approved templates only

WEEKLY SALES ROUTINE

Day	Activity	Time
Monday	Build prospect list (20 new targets)	1 hr
Tue–Thu	Send outreach (10–15 emails/DMs/day)	1 hr/day
Wednesday	Follow up on open threads	30 min
Friday	Run 1–2 demos or discovery calls	1–2 hr
Ongoing	LinkedIn value post (tip, screenshot, case study)	30 min/wk

Remember

You are selling a **business operating system**, not a website. The Costa Peptides deployment is your proof of concept. Every admin module is a selling point. Use the platform to sell itself.
